

RESURRECTION SCHOOL

AURORA, ILLINOIS

Project Profile

Resurrection Evangelical Lutheran Day School Aurora, Illinois

MeritCorp was integrally involved in all phases of the project from conceptual design through acceptance by the municipality.

The project scope included construction of 5 new classrooms and a multipurpose gymnasium. MeritCorp's team worked closely with the school's building committee, architect, and general contractor to help formulate an attainable budget, prepared concept plans, prepared schematic design, design development and construction plans for the project.

MeritCorp also provided due diligence services including topographic survey, wetland delineation, drain tile investigation, floodplain overlay, coordinated preliminary geotechnical investigation, subdivision plat, construction layout and as-constructed survey and record plans showing all site improvements.

"...the credit goes to you as you have thoughtfully considered and guided this process from day one."

*Kenneth O'Brien
Church President*
